

# ODAMC Car Club Library Books

The ODAMC Car Club Library is a collection of reference books available to all current members. It is a collaboration of donations to support the continued education when restoring vehicles.

Members should record in the little blue Collins book stored at location 33001 the details of their borrowing and returning items and ensure that they return them to their correct location.

Donations welcome. Please let the librarian know so the position where they are stored can be added to this register.

Further enquiries to Ron Shewan
