President's Report August Meetings 2016

First of all my apologies for my incoherent behavior at the last meeting I was not drug or alcohol affected but something was terribly wrong maybe I was jet lagged.

Thank you Kerry for attending to the last two meetings while I was away, It was sad to hear the passing of our secretary Graham, Thank you to all those who attended his funeral.

Our first run since our return was today with the Sporting Car Club which was well attended by both clubs, everyone has a good time and good food.

Next Saturday is our casserole evening at the club rooms come along and enjoy the company.

We have reprinted the agenda for the President's run please reconfirm your intentions for this run weather you have book a room at the motel or require the booking with me for the hotel.

The Country Council Easter Rally next years has been moved to May 18<sup>th</sup> to 22<sup>nd</sup> at Albury Wodonga I have already entered this event I would like to hear from other members if they are interested in this event.

Registration Inspection day if the last Sunday in November 28<sup>th</sup> all car on historic registration and log book scheme **MUST** present their vehicles to be scrutinized by authorized club members. If you are unable to attend you will need to present a garage certificate to our registration officer. This is important so that we can keep our club records in order.

We are fast approaching the end of year AGM where we will need to elect new executive members please give this some consideration to help keep the club moving forward. It would be nice to see some new faces up on the front desk for a change.

Yours in vintage motoring

Keith

## LOGBOOK. ABUSE IT AND LOOSE IT.

A club plate vehicle from another club was pulled over by police and when asked to produce the vehicles logbook the owner happily obliged with the appropriate entry for that day. But when questioned about other specific dates, the driver was adamant that he hadn't entered those dates in the logbook because the vehicle had not been used. The policeman then produced a log of times, dates and places that the vehicle had been observed by the police (possibly plate recognition technology) it became obvious that driver had been fudging his logbook. On closer inspection, the policeman noticed that the entries had been made in pencil and previous entries had been rubbed out and superseded with a new one.

The logbook has been confiscated and the vehicle cannot be used as it no longer has a logbook. The owner is facing charges of driving an unregistered vehicle, falsifying documents and possibly attempting to pervert the course of justice. The Police are expected to apply to the courts for the forfeiture of the plates issued to the vehicle. It is possible that the club issuing the permit could be in trouble too. If the owner is convicted, there could be serious ramifications for the club permit scheme. The lesson is this, don't take chances when using your club plate vehicle.
