## Presidents Report August for September 2017

Thank you Kerry for taking the chair in my absence. As usual, a seamless transition.

A warm welcome to George and Kerry Gillott .We look forward to you joining our merry band and having more cars on the road.

The management committee will discuss applying to Bush Council to hold their 50th anniversary rally in 2020 and report back to the members at the September meeting on their recommendation to be voted on.

June is looking good. Please remember to make your own accommodation bookings. I would like numbers for dinner at the June Hotel, and breakfast at Madison Cafe at Sep. meeting.

The Fathers Day run to Escort Rock should be very informative. Perhaps Blind Freddy can help separate truth from fiction.

Is anyone interested in contributing to the Rambler on a series of "My first car " ??

Happy motoring

Dave and Chris Grey sent in this picture, Photo of Dave, lance, Owen and Anne at Borenore caves 3rd August. Chris on camera Bernie and Elizabeth joined us later for lunch with the feathing kookaburras, Sent in by Dave and Chris Grey

Taken from the Depender, Austin Motor club magazine, February 2017.

A fire fighter is working outside the station when he notices a little girl in a little red wagon with ladders on the side 's, a garden hose coiled in the middle ,and wearing a fire fighters helmet. The wagon is being pulled by her dog and cat. "That's a nice fire truck" the fire fighter says with admiration." Thanks" the little girl says. The fire fighter takes a closer look and notices the girl has tied the wagon to her dogs collar and to the cats testicles. " Little partner" the fire fighter says, " I don't want to tell you how to run your rig, but if you where to tie that rope around the cats collar, I think you would go faster. The little girl replies thoughtfully, " your probably right, but then I wouldn't have a siren"

EDITORS RAMBLE

Please enjoy September's edition of the ODAMC.

Featured on the cover of this month's magazine is Lance Seymour's fabulous 1960 Porsche that attracts a lot of attention wherever it seems to go. Lance also sent in some information about this car.

I visited the new car museum at Gosford during the week. Excellent, and a wide variety of cars. Unusually, a lot from the old eastern block countries, so very rare in Australia and rare in the world now as a lot of them were two stroke engines and didn't meet western emission control standards when the east was reunited to the west and, as a result, were taken off the roads, en masse. A great day out and an easy day trip from Orange. All cars are for sale but some of the prices aren't for the faint hearted.

I will be leaving for a trip to America on the 23rd of September so the October mag will be put out earlier than usual, the 21st of September is the cut off point, so, if you could have all your articles, reports and items in as early as possible, that would be greatly appreciated. As always, if you have any suggestions or ideas for club runs, let me know and I will add it to the events page.

This month's edition includes, The 2017 presidents run to Junee itinerary, set down for 14th + 15th October.

An invitation and application to the 41st bike rally in Parkes .30th September – 2nd October 2017. ( non club run)

A flyer for the Parks swap meet on Saturday 14th October ( non club run).

A flyer for the Portland spring fair 28th October (non club run)

A flyer The Neville show society 18th October that has been listed as a club run.

A flyer for the Orange Classic cars, food and wine for November 24th - 26th.

and the Temora swap meet at Temora on 23rd September that is also listed as a club run

An invitation from the Yass Antique Motor Club for an event to be held on Saturday November 14th.

The Cootamundra Antique Motor Club 26th Fathers day swap meet to be held on 3rd September.

Forbes Motor Show incorporated, letter and entrants registration form set down for Sunday 1st October.

A Highlighted inspection day notice from Bernie Schell. Please read carefully.

Dave and Chris Grey sent in a picture from the Borenore caves run on 3rd August.

## Annual Inspection Day

The annual club inspection day will be held on Sunday 26<sup>th</sup> November 2017 at the car club building starting from 8am.

Vehicles on conditional registration with the ODAMC with a registration expiry date between 26<sup>th</sup> November 2017 and 26<sup>th</sup> May 2018 will be inspected on this day. This is because the certificate of roadworthiness (Pink Slip) and the club safety checks are now valid for 6 months. If you are unable to attend on the day then a certificate of roadworthiness (Pink Slip) may be required for the vehicle.

The following documentation will need to be sighted and details recorded by the Registration Officer on the day.

1. Historic Vehicle Declaration (RMS form #1259) partially filled out.
2. Registration Papers current or renewal.
3. Current certificate of Comprehensive Insurance
4. Proof of Club Membership.
5. Certificate of Operations for the vehicle (Purple Form kept in the vehicle).

### Note.

The annual inspection of vehicles on Conditional Registration outside of the expiry dates listed above may require either an ODAMC roadworthy check or a certificate of roadworthiness (Pink Slip). This will be at the discretion of the Registration Officer

**The Historic Vehicle Declaration Form will not be signed off this year unless the above documents are sighted and details recorded by the Club Registration Officer beforehand.**

Club members with vehicles on HCRS are reminded if their membership fees are not paid by the due date they are not financial members and their registration and CTP will be void! (ie the vehicle is unregistered and uninsured).

B.A. Schell

Registration Officer

## The 1960 Porsche 356B TS Super 90

The model is 1960 356B T5 Super90. Back in the day, these cars were often referred to as inverted bathtubs...hence the number plate TUB-356.

The engine is the original factory pushrod 1600 with the rare Super90 power option ie. 40mm carbs, large inlet valves and tiny exhaust valves. The transaxle is 4 speed with a very long overdrive 4th gear. Factory guaranteed top speed was 115mph at 5600rpm.

While delivered as a factory RightHandDrive in early 1960 in Australia, it would have been manufactured mainly in 1959.

I have known this car since 1982 when I started up The Australian 356 Register. An old mate of mine, Arno Leinas, owned the car from 1961 through to 2012. Arno and Peg never missed a 356 run and he enjoyed people constantly offering to buy his car. Arno was a sound engineer at the Sydney Opera House. The car had its' own parking spot under the stairs of the Opera House for decades....the parking sticker is still on the windscreen.

The car caused a lot of interest at auction due to the engine option and the x5 factory installed Rudge (knock-off) wheels. It sold at 60% over the auctioneers estimate to a Melbourne dealer who asset stripped the wheels and sold them on eBay for USD50k. The car was then restored using factory original parts which I supplied and put on the market. I "one for one" swapped a 1958 Porsche 356A Speedster rust bucket, which I had owned since 1983, for the restored Super90.

These cars, in the 1950s, had a reputation for being 'tail happy'...so, with the release of the slightly updated 1960s body , the factory softened the rear torsion bars to provoke understeer and installed a compensator spring across the rear to prevent suspension sag when carrying passengers in the rear seats.

The brakes are eleven inch alloy drums all around.....Porsche was the last sports car manufacturer to drop drums for discs.....they relented for marketing reasons only....not because the drums were not good enough. The Chev Corvette of this era weighed double that of the 356 but had half of the swept area in the drums. The 356GT drums were another 20% bigger than standard ones.

The cars were handmade (a lot of lead) so, the doors, bonnet and engine lid were stamped with the last 3 digits of the chassis number to ensure true fit, after the paint shop....the purist collectors of today put a high premium on cars with "matching numbers".

See video "Porsche 356 Made by Hand"

[https://www.youtube.com/watch?v=tbFu1r\\_erw0](https://www.youtube.com/watch?v=tbFu1r_erw0)

The Super90 engine had a bad reputation for being fussy when driven at town speeds but came alive over 50mph. With the efficiencies that we enjoy from modern fuels, the tuning of these engines while producing even more power also deliver much improved fuel efficiency also more torque at lower revs....The most obvious change being that the float level is now set a 7mm lower than 1950/60 levels.

It is now a joy to drive around town as well out on the open road.

Regards Lance

Re: Orange & District Antique Motor Club

Dear Peter,

The Neville Show Society is in the process of organising our show for this year to be held on Saturday 18th November, 2017 at the Neville Showground.

We should like to extend an invitation to the members of your club to attend to display your Antique Vehicles.

We would greatly appreciate your attendance as we feel it would create a wonderful "drawcard" to our show.

Please advise us as to whether you will attend our show.

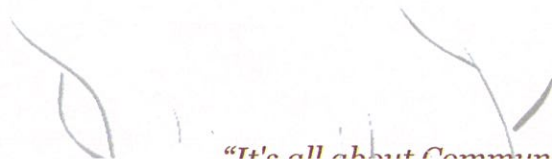

Kind Regards

Dear Club Members

SAVE THE DATE

The year is flying by, and we are fast approaching November when 'Classic Yass' will once again show case many beautiful and interesting vehicles from around the state *and beyond*. I would like to ask if you could mention 'Classic Yass' at your next meeting and possibly add it to your web-site, magazine and calendar if you've not already done so. This year, the event will be held on *Saturday November 4th*.

Again Classic Yass will be held in two parks, Banjo Paterson Park and River Bank Park where we will park cars in roughly chronological order - motor show style. 'The Hips' (with 'Rockpile' Jones and Paul McCann both of *Ol' 55* fame) will once again entertain us through the day in the park and again in the evening, at the Saturday night dance. *Saturday morning will also feature the official start of the Alpine Rally, ensuring a memorable start to a fun weekend!*

We are in the process of making arrangements with other groups to provide further attractions on Sunday in the close vicinity of Yass, making it a great weekend in the Yass Valley. We will be keeping the web-*site* and Facebook page up to date as arrangements are confirmed. (web-*site* to be updated soon)

We look forward to seeing some of your members at this great event.

Kind Regards

Glenda Snape
